Customer Reviews

With great illustrations, my 3 years old son can read out the story even without knowing the words. The story is about a rabbit that was struck in the street with cement. The animals in busy town tried to find ways to get the rabbit out, including using big fan, dump truck, stick, and finally power shovel to scoop him up. It is amazing that just with the simple questions, like "Can we blow him out?" can arouse the interest of the little reader to read the book. This is one of favourite bedtime stories for my son. It is really a great book. I highly recommend this book for toddlers.

Like other richard scarry books this one has the usual FUN cast of characters....The pictures are charming and the words are not intimidating. It would be easy to follow and predict the words because the pictures are so descriptive. This was a great early reader book.:)

Great early reader for a toddler. The pictures and text are large, so they are easy to see. The story is cute and there is still a fair amount of detail to discuss beyond the text. It uses prediction well, so it does a good job with beginning reading strategies.

Super Cute! As a reward for reading, I bought this for my daughter who loves Richard Scarry books:) This book is silly, even as a mom I laughed. I highly recommend this for anyone looking for a "reward" type of book for growing in their reading skills. My daughter reads this over and over!

This book is so simple and fun (AND SHORT!) to read to my boys. My 4.5 year old is also starting to read a little on his own. This book is perfect!

This is a cute story that our toddler takes to read to himself while sitting on the potty chair. Whatever works.

I have had this book on my shelves for 10 years. I am still reading it. Mine is worn out and I am planning on getting myself a new copy and the kids that come to my house for childcare. This is a great early reader book. Mr. rabbit is so busy reading his paper he gets stuck in the street. Can they get him out. and ones they get him out what kind of trouble is he going to get himself into next. Very short book, but be prepared to read this over and over until your child is reading it to you.

My 5 year old loved it, read it over and over. He was so excited that he could read it and was telling me all about it.
