Customer Reviews

I am not an car enthusiast, but my brother is. At present he has several Caddies from the 40's and 50's. After reviewing a number of books on his subject, I selected this one and picked a winner. He called earlier today, thanking me for this book again and enumerating it various virtues. I gather it lists all the esoteric information needed. I am afraid my comprehension of exactly why this book was so wonderful is minimal at best. All I know is that he enjoys it very much and consideres it a prize reference for the collector.

A brief however well documented review of Cadillac from 1903 through 2000. Could have had more color photos, but a good review none the less.

If you're into Caddies like I am then you'll appreciate this book. Lots of pics and year by year specs. Detailed history of Cadillac etc.
