Customer Reviews

This vegan spring roll recipe guide is a great introduction to a little Vietnamese cooking. I've always loved spring rolls but never thought I could make my own. With this guide I can and it's actually pretty easy. The author gives you simple instructions with ingredients that won't be hard to find at the market. I think you should try a few of these recipes out and let the author know what you loved. I would have liked to see the nutritional information included just to know exactly what im eating in a spring roll. But his doesn't take away from the quality of this recipe book. Im ready for the next one!

I have to preface this by saying that I am not a vegan - I love meat. However, the recipes in this book sound delicious! I love the way that the recipes are explained in plain language, and I love the little comments that are in it. I particularly think that the Irresistible Sweet Potato Spring Rolls sound awesome. My mother in law and I both love sweet potatoes. There are choices that everyone should enjoy and I highly recommend this book for people who are looking for new, healthy choices for meals and appetizers.

All of the recipes in this cookbook are incredibly simple, fresh, healthy and easy for any home cook to prepare.
