Customer Reviews

Yes!!! To everything in here, I say, YES!!! As a fellow pianist-turned-organist, these are the same 'secrets' and 'tips' share with future pianist-turned-organists. Thanks for putting it together in an easy to read format that I will definitely be sharing and referring back to. The arrangements of the hymns in the book are also very helpful with both a basic and a 'variation' on the pedals so you can start where you're comfortable and then work your way up! Thanks for this great resource Brandon!!
