# Dump Dinners Cookbook: 101 Quick & Easy Dump Dinner Recipes For Busy People (Dump Dinners, Dump Dinners Diet)

## Synopsis

DISCOVER THESE AMAZINGLY SIMPLE DUMP DINNER RECIPES! DOWNLOAD TODAY AND RECEIVE A FREE BONUS!\*\*\*Read this book for FREE on Kindle Unlimited - Download Now!\*\*\*If you want to prepare quick, easy and delicious meals and then this recipe book is for you.... THIS RECIPE BOOK was created for people like you who are BUSY but still want to have a homemade meal for dinner. Each recipe can be prepared and cooked with very little time and effort on your part which makes them all perfect for people who hate working over a stove all day. When you think about the phrase "dump dinner", there are a few things that might come to mind. The theory behind this phenomenon is ease and speed: people who are low on time and energy, yet want to create delicious meals for their families, are sometimes unable to accomplish their culinary desires. Due to their busy schedules, they resort to something quick and easy, perhaps even take-out. This can get costly, however, and in the end is not the best option in keeping the family healthy. Dump dinners are the solution to that problem, and in this book you will have the opportunity to select from 101 different dump dinner recipes. Dump dinners have a few things in common: to start, all of the ingredients are put in crock pot or in a slow cooker - this is where the idea of "dumping" comes into play. Then all you have to do is heat the ingredients according to your device, and walk away. That's it! When you come back, you have a healthy, flavor-packed meal that your family is certain to fall in love with. This saves you time, money, and you and your family can choose in advance the meals you'd like to prepare during the week. You can be sure that within just a few days of using this book, you and your loved ones will have picked out some recipes that will become family favorites in no time! ## Customer Reviews

Where do I begin? This is the absolute worst cookbook I have ever looked into.....for starters, there are no page numbers, no index, no chapters to divide categories, no information regarding the number of servings (except on recipes she copied and pasted from other sites, and I'm sure about that because I checked), terrible and incomplete instructions, missing ingredients and missing sizes or quantities of ingredients that are listed. I really don't understand how this book ever got a 4 or 5 star rating from reviewers unless they were all related to the author and bought the book. DO NOT WASTE YOUR TIME OR MONEY ON THIS ONE. If KMT Publishers wants to stay in business, it better start hiring editors that can read and catch gross errors on the written page. This book appears to have been thrown together just to make a deadline should really take this book off the market until all the glitches are fixed and the book reissued. I am going to send this book back with all the pages marked with post it notes that have glaring errors. If you want a good dump dinner book buy "Dump Dinners Amazingly Easy and Delicious Dump Recipes" by Julia Grady. It's well written and has great recipes.

Not what I thought, when I see quick & easy I think dump everything in and cook, you know, like the dump cakes, however most every recipe has to go in freezer for 12 - 24 hours, then cooked in crockpot for 6 - 8 hours just doesn't seem all that quick or easy to me, good recipes though and when I have the time I'll make.

Let me start off by saying there are many of the recipes that look quick, easy and tasty, and I look forward to trying them. However, I would say the title is misleading as there are not 101 different

recipes in this e-book. There are several recipes that have the same ingredients but the titles are different. I would not count this as a different recipe just because the title has been changed. The directions for the recipes are clear, and there is an option in the directions for freezing the recipe, should one not desire to make it immediately.

I downloaded this as a free kindle book. Sometimes you get what you pay for, other times you pleasantly surprised. This is not one of those times. Yes, there are 101 recipes and some are ok, actually sound good but the book as a whole leaves me wanting. A table of contents for each recipe would be good so I don't have to scroll through each one to find one that doesn't have to be frozen for 8 hrs first. Maybe separate the recipes into freeze first and don't freeze first would be just a start.

This is essentially a slow cooker cookbook, trying to ride the dump-dinner craze. Hard copy is from download. Measurements are mixed, with U.S. and metric measures comingled in recipes. No page numbers or index. Duplicate recipes, poorly written. Merits a -1 rating.

A busy people like me need a dump dinner recipes. I tried many dump dinner recipes and I am happy with it. I am looking for more dump dinner recipes so that I can taste more different foods. They said that I must try the other recipes in this book and they are good and don't matter the other recipes. They are correct most of the recipes in this book are awesome and some are not because they are bit confusing to me. I am looking for pictures of the finished output of each recipes but I haven't seen one but the entire book is good.

I love reading cookbooks since I get to pick food that I would like to eat as well as practice cooking at home. This book is mainly about dump dinners. There are a lot of recipes in here and all of them come with short instructions which are fairly easy since these are dump dinners. Save for the lack of photos for the recipes, I think the book still came out useful. Thumbs up! Most of these are going to my recipe notebook.

Dump dinners are the best for us busy people. This book gave delicious easy recipes to help you do your meals even easier. I noticed that there are two types of dump dinners- dumping ingredients and cooking in few minutes then serve and dumping all ingredients in the crockpot and wait for 6-8 hours before serving. Either of the two suits my schedule very well. The author just made her name on cooking books!
