# Japanese Hot Pots: 35 One-Pot Recipes With A Traditional And Diverse Way Of Slow Cooking (Slow Cooker & CrockPot Recipes)

## Synopsis

Japanese hot pots are just one of many amazing cooking styles permeating this part of the world. By definition, this style of cooking is simple, fast and easy to prepare. Hot pots are also wonderfully fun and social, as this style of cooking doesn't leave anyone trapped in the kitchen. Inside You Will Learn: What a hot pot is Traditional flavors, styles, and ingredients The important ingredients and a step by step on how to make them What you will need for cookware Step-by-step recipes Common mistakes and etiquette These dishes are easy to make and will provide your friends and family with home-cooked, wholesome meals with minimal cleaning up later on. You can even infuse your own flavors to your personal taste when you get the hang of Japanese style cooking and create a signature go-to dish. From a variety of fish and meats that you can include, this can be the perfect meal every night of the week. Boost your meal with extra ingredients to please a crowd or create a warm dish for yourself. With so many variables, it also gives you the power to create and develop your own flavors! Don't Delay. ## Customer Reviews

Never having had a Japanese Hot Pot meal, I was very interested in discovering what it was. I was also surprised that a Slow Cooker could be considered a hot pot. This book has an excellent section which explains the various herbs, sauces and ingredients used in the recipes. Explaining the Japanese names makes them more understandable and expanded my vocabulary. The recipes

sound very interesting but not having a Japanese Market in the area makes it hard to try them out. It would be helpful if the ingredients that are found in the average grocery store were identified. This would make the grocery list to be mail ordered much shorter. I have received this book free for an unbiased review.

I'm all about keeping it simple in the kitchen, so this book is right up my alley. What can be simpler than cooking everything in one pot! This delightful cookbook will take you on a culinary journey through the Far East with the wonderful flavours found in Sukiyaki...MÅ•ryÅ• NabÅ©....duck and dumplings...Kani NabÅ© (Crab Hot Pot)...Kimchi and more....there is even a chapter on vegetarian recipes! Gather friends and family around the table and 'dig in' to the wonderful recipes found in this book!"Disclosure: I received this product for free in exchange for my honest and unbiased review"

I received a PDF version of this book at no charge in exchange for my honest review. What at first appeared to be another slow cooker recipe book is quickly revealed to be a course in the subtlety of Japanese flavors and cooking. Alas I'm afraid the recipes are way above my skill level. I would not even know where locally to start finding the ingredients. I'll leave the cooking of dishes from this book to those already expert in Japanese cooking. If you are the adventurous type wishing to expand your cooking skills, this is a book for you. Try Something New Tonight

Well written and enticing, this cookbook will open up new vistas in your kitchen. What a Japanese hot pot is, a breakdown of the essential ingredients, equipment needed and the basic method are all nicely detailed. This simple cooking cuisine produces lovely, full flavoured and hearty meals and there is a large selection of recipes to get you started. If you are new to this type of cuisine, this is a good cookbook for the adventurous and curious cook, easy to follow and sounding absolutely delicious. I received a free pdf for my review.

I had heard of Japanese hot pots before but never had a chance to look into them till now. This cookbook breaks down to easy terms the ingredients, utensils and recipes to make the broths and hotpots themselves. There are lots of different recipes from very simple to a little more involved, but none of them are really too difficult to make. The hardest thing may be finding a source for some of the ingredients, but a larger nearby town should have an international store where you can buy them. Have fun trying a new cooking style.

I find this book very interesting but the ingredients may be hard to find for most Americans. I would however, buy this book as a gift for my neighbor who spent a lot of time in Japan and cooks Japanese dishes. "Disclosure: I received this product for free in exchange for my honest and unbiased review" Japanese Hot Pots: 35 One-Pot Recipes with a Traditional and Diverse Way of Slow Cooking (Slow Cooker & CrockPot Recipes)

"Disclosure: I received this product for free in exchange for my honest and unbiased review" This seems a great book for cooks with some experience, but who have no experience with Japanese cooking. It gives some good hints, explains the ingredients used and then follows with many recipes. Most of the recipes seem pretty exotic to me and utilize ingredients that might be difficult to obtain, depending on your location.

"Disclosure: I received this product for free in exchange for my honest and unbiased review". This an excellent primer for those who love Japanese style hot pots. The book covers all relevant topics, including the history, techniques and marinades. I would have given it 5 stars if there were pictures. Every cookbook MUST have pictures!
