This book is great for the pokemon go-ers who are seeking a bit of an edge over their opponents. The book could do with a bit of an update but it goes a long way in getting you the edge needed to be top of the pile in pokemon go. The author lays out the information very concise and understanding that even the beginner can get on top of the game with this book. The guide also explains about gyms, how to use various places in the game and how to be a very effective pokemon trainer.

I started playing Pokemon Go last week but even though I just started, I feel like I have been playing it for ages! Lol. This is because of this guide. After reading it, I have accumulated a lot of great information inside and that makes me feel and play like a pro. With no doubt, this is a good catch!

Actually, I was not surprised by the information I got from this guide because basically, I already know them prior to reading it. What makes me rate this guide with 5 stars is that, the way the author - Lochie B, wrote it. It was so flawless and very easy to understand. I felt very comfortable reading it. I can say that I really love the writing style and I look forward for more eBooks of Lochie :)

Great guide. Two thumbs up for this! Grab your copy now and enjoy the fulfilling information presented.

Are you a newbie and would crazily want to know every single details on how to play this new game trend? If YES, then you MUST grab this book! Personally, I find it very helpful that is why I can't recommend it enough. I love it! Thanks, Lochie :)

The reason I bought this book guide for Pokemon go because I am kinda addicted to this game and for some reason I don't know why I cannot catch any Pokemon. Playing Pokemon go is another bonding with my son during weekend. We are new to this game and we really loved it. Thanks for thê tips and tricks we really appreciate it.

Lovely read. I still cannot believe that I happen to bumped into this book. It was a great experience reading it. I enjoyed it too so overall, I can say that this is a good book.
