Customer Reviews

True geometric patterns reminiscent of age-old compositions based on mathematical precision; designs are very beautiful symmetric patterns of stars, circles, polygons and much more. Gorgeous and satisfying to color.~ 31 designs~ unique designs fill the page and have a border~ most designs are quite striking and are lattice (interconnected)~ computer generated~ clean thin and precise lines~ bright white weight paper~ each design on dedicated page~ printing is of excellent clear resolution~ alcohol markers will bleed through (suggest personal use copying onto 80 lb. cover stock paper to not use too much marker ink)~ pages are perforated for easy removal all find coloring in these books to be very meditative, relaxing and satisfying as the colors pop and the design begins to emerge according to my color choices and placement. This is a favorite coloring book that I keep coming back to. Each design can be reworked for a totally different look.

Quickly became my favorite geometric pattern book..lots of fun!!

Love it! Great entertainment!

Not so good
