Understanding AS/400® System Operations

Synopsis

Tis guide is intended for students learning computer operations and administration on the AS/400 computer system. Offering a unique approach to learning AS/400 operations with extensive hands-on labs, self-tests, and review questions, this book uses real-world situations to enable users to be productive with AS/400 operations. This book also covers the requirements of the two IBM AS/400 certification exams: AS/400 Associate System Operator Certification (test 052) and AS/400 Professional System Operator Certification (test 053). The primary goal of this book is to teach users how to perform day-to-day operations on an AS/400 computer system, including IPL, starting and stopping the system, backup and recovery, and system cleanup. Procedures covered include creating and maintaining user environments, device configuration and management, security implementation, work and data management, and TCP/IP configuration. Console operations discussed include jobs, message handling, and working with spool files and peripheral devices. Functions of Operations Navigator are covered, and Electronic Customer Support (ECS) and PTF upgrades are also introduced.

Book Information

Paperback: 816 pages

Publisher: Mc Press; 1 edition (June 15, 2000)

Language: English

ISBN-10: 1583470158

ISBN-13: 978-1583470152

Customer Reviews

Was informative

Helped me obtain a job with AS400 mainframe systems. Great book.

book was too much about operating and not enough about programmingthere needs to be some operations but more on libraries and how to compile link, etc

I not only bought the book, but I use it as a text book for the AS/400 Operations Classes that I teach. Material is placed in the correct order and explained in simple terms that are easy to follow. The authors also provide access to Powerpoint Presentations for each chapter - these are also wonderful. For the new user this is the best book to buy - or if you are studying for the IBM professional operator exam - this book also contains the right information to accomplish that goal.
