## Customer Reviews

We got this book for my soon-to-be stepson, who just turned 8, for his birthday as part of a "prank kit" which contained lots of different items that he can use to prank people. He was very intrigued by this book. He likes that it is his "secret" book with a lock on it (that falls off somewhat easily, I might add), and tries to make sure that his sister won't see what's in the book. I got this for him just figuring, what the heck, and assuming that he wouldn't really be very interested in a book, based on other times that we've gotten books for him. Imagine our surprise when we saw him sitting on the couch, not playing video games, but with a book! He was flipping through the pages and reading about the pranks. No, it's not a long book or anything, and there are lots of pictures, but it is a book, darn it, and he was enjoying himself reading it, which is great. Maybe we should put locks on all of

his books. :)

I bought this book for my 6 year old son and he LOVES it. It is written with about 4 jokes or pranks per turn of the page, and they are written inside of big blocks or stars (kinda like scrapbook style) with pictures and things all around. It has a shiny cover with a small lock and key like cheap girls diaries have. Boys don't usually get locking books, so between that, the eye appeal, and the funny nature of the content, it was an instant hit. We are going to buy a second one for his Kindergarten class because he likes it so much. One side note though, it says it is written for ages 9-13. I'd say that isn't really right considering our youth today and how quickly they are learning. I would say ages 6-10 will probably enjoy this most. UPDATE: My son is now 8 and a half, and he still loves this book!

It was on my granddaughter's Christmas list and it has impressed her very much so it will get lots of use!

This Prank Star book was a nice gift to go with presents for our little prankster! He likes having the lock and key to keep his jokes and pranks hidden inside, so I'm sure there will be lots of tricky surprises for us soon. I noticed some interesting facts in this book as well that adds a little something extra to it. This is good buy for anyone with a young jokester/prankster!

grandson needed joke things for school and this was inexpensive for the money he thought he wanted to be a trickster but changed his mind when he seen how it hurt some
