Any type of vermouth "drier martinis" have evolved to include almost any combination of ingredients that is poured into the classic wedge-shaped martini cocktail glass. CLASSIC MARTINI 1 oz gin dash dry vermouth Combine liquids in mixing glass with ice and stir rapidly if you're a serious food fan. Strain into chilled martini glass. Garnish with olive. VARIATIONS Note: Dryness (amount of vermouth) is a complex subject. Some want a splash of vermouth mixed with the gin and others don't. The usual rule is to use 1 part gin to 1 part vermouth. Very dry may mean just pouring the gin from the vermouth bottle continuously over the glass (the usual response). Super dry may mean straight vodka while nicely starting at the vermouth bottle (the Charleston martini). Traditional - use rose of lemons rind for the olive. Citrus - use a cocktail orange for the olive. Vodka Martini - use vodka for the gin. Sweet Martini - use sweet vermouth for the dry. Sometimes a dash of orange bitters is added.
